

SUGGESTED DISCUSSION POINTS FROM MAY 1, 2022 SERMON

Keep On Loving Each Other

Do you feel like the church is a safe place to let your guard down and let others know what you are dealing with? What has been your experience throughout your life?

Why is the church to be the safest place on earth?

Discuss: All of us have messed up, are messed up and feel messed up but we have been forgiven in Jesus Christ and we are a group of messed up people loving other messed up people until we see our perfect King face to face.

Is your home a safe place where people feel welcomed and loved? Is your home a refuge for those brothers and sisters in the world who are struggling?

How have you practically showed hospitality to strangers?

What would it look like to love and care for prisoners?

When we say the church is a 'safe place,' what is one thing we don't mean by that?

Discuss: Corporate desire: For VBC to grow more and more into a safe place where people can open up with their problems and find others who really care and who want to take the time and energy to love them and help them no matter what.
